## Download the Mobile App

The Mobile App is available on Apple App Store or Google Play Store. Search “CarePro+” to find the app.

## Register the Smartwatch

When the installation is completed, begin the registration of your personal account on the mobile app.

### Enter your email address

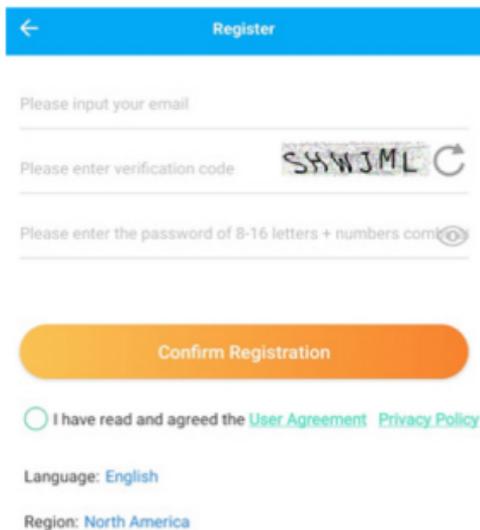

**Register Code:** ID number or register code, this is not IMEI number

**User Alias:** Child's name

**Password:** set a password

**APP Language:** English

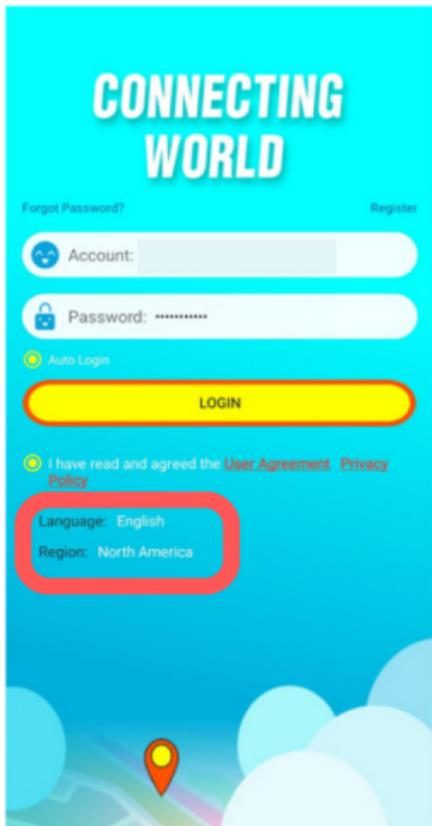

**Region:** North America

The screenshot shows a mobile app registration interface. At the top is a blue header with a back arrow and the word "Register". Below the header are three input fields: "Please input your email", "Please enter verification code" (with a refresh icon and the code "SHWJML"), and "Please enter the password of 8-16 letters + numbers com". Below the input fields is an orange "Confirm Registration" button. At the bottom, there is a checkbox for "I have read and agreed the User Agreement Privacy Policy", followed by "Language: English" and "Region: North America".

## Login to the Mobile App

After registration is completed log into your account.

The screenshot shows the login interface for the 'CONNECTING WORLD' app. At the top, it says 'CONNECTING WORLD' in large white letters on a blue background. Below this, there are links for 'Forgot Password?' and 'Register'. The main form contains an 'Account:' field with a user icon, a 'Password:' field with a lock icon and masked characters, and an 'Auto Login' checkbox. A prominent yellow 'LOGIN' button is centered below the password field. At the bottom, there is a checkbox for 'I have read and agreed the User Agreement Privacy Policy'. Below that, there are two dropdown menus: 'Language: English' and 'Region: North America', which are highlighted with a red rounded rectangle. The background features a stylized map and clouds.

1) Enter Your Email and Password

2) APP Language: English

3) Region: North America

4) Accept Terms & Conditions by Clicking & Accepting Where Indicated.

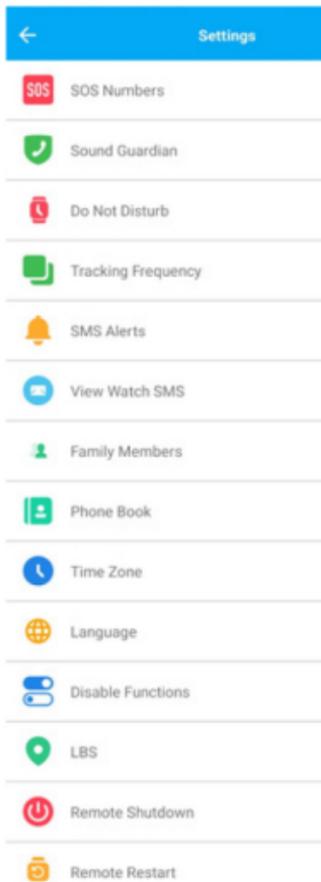

## Setting up the watch on Mobile App

Log in, find the setting, click the phone book or contacts, and save the needed numbers. The same steps apply to the other functions.

### Set the SOS Number: (Mom / Dad / Family / Friends)

Only the phone numbers saved in the app phone book contacts can call the watch.

Remember to always click the **save** button.

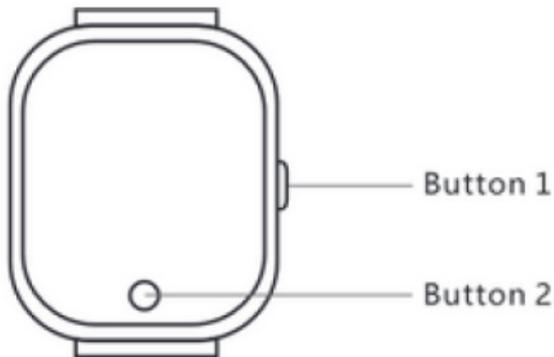

## Calling Feature

### A. Calling the Kids Smartwatch:

- 1) Use your finger to slide the screen from the left or right side to find the phone book interface, click it, see phone numbers saved by the APP, and choose the number you wish to call.
- 2) Long-Press button 1. It will automatically call 3 SOS numbers one by one until it is answered. If the call is not answered, it will cycle through again.
- 3) Short Press button 1 to cancel the call.

### B. Call the Watch:

- 1) To call your child's smartwatch, press button number 2.
- 2) To receive a call or to cancel or hang up a call, press button number 1.

## Tracking Feature

- 1) Turn on the watch and ensure it has a signal.
- 2) Open the map on the mobile APP, click the location, and then it will show your child's location on the live map.

### Notes:

If the watch is indoors, it usually will position itself via LBS or WIFI, a slight deviation is possible; this depends on the distance between the watch, the Network Towers Base Station, and the type of building structure.

## FAQ:

If you have saved the phone numbers and the watch indicates that the device can not connect to the network.

1) Is there a signal after inserting the card?  
Please check if the watch rings when receiving a phone call.

2) Check whether the watch is on or not.  
(Note: before using the APP, the watch must be on)

3) Check whether the watch ID matches the ID on the tags.

5) If it is still not working, please get in touch with our support team online

- When you call the watch, it alerts you that the number you have dialed is busy; please try again later.

1) Is there any signal after inserting the card?

2) Please check that you have saved phone numbers on the Mobile App.

3) Check If you have turned on the DO NOT DISTURB in the App and set a time; if yes, please switch to OFF.

- The positioning function is not working.

1) Go outside with the watch and try again.  
(This is for GPS functions only)

2) Once the watch goes into SLEEP MODE, it will switch to SAVE POWER MODE, which means the function of uploading data is OFF.

You can refresh the position by shaking the watch to wake it up.
